Subject: Imagine all your Flower Hill Mall tenants who are doing the same thing. Re: "Sending munitions to Russia to pay pennance" [sic] Re: im thinking about a change of plans.

Can you fill me in on what is happening this Saturday?

BTW, explain why you didn't show up at my New Beginnings Party back on December 10th, 2000 since I assume your mother passed on my invitation?

You also know that I have to question your sincerity of "always be there for u" [sic] although you will undoubtedly recall how tough it was for me to tutor you to pass Deceased and Insolvent Estates at our alma mater, University of Natal-Kwazulu, South Africa.

Not to mention given how much in denial you are which has you shutting down prior to being certified with irreversible dementia, let me remind you of what I wrote back on April 21st, 2006 to Conrad Wolf who rallied to the defense of your brother Roy, a top lieutenant of Marc "Trading with the Enemy" Rich:

DOES ROY ESSAKOW DIG YOU "MIDDLING" [SIC] IN HIS DIGGINGS?

To mention little of not only can you find the entire 1408 word email by clicking the hyperlink below

<http://nextraterrestrial.com/pdf/ressakow-dig.htm>

but "sum" [sic] might believe that you were possibly the only person other than Conrad who was responsible for my communications referencing Roy's role in the fraud of frauds having such a high profile on the Internet, as you once again type the name ROY ESSAKOW into Google Search.

You may not recall word-for-word the one email of September 22nd, 2004 which appears right below Roy's erroneous profile; click below:

<http://nextraterrestrial.com/pdf/Mgardener-enuf%20sex.htm>

Now go ahead and type the name Jeffrey Essakow in Google "SEarch" [sic] and you will battle to find the many emails in which I reference you.

Do you really resent your brother as much as I suspect you do or does the money he has you groveling for compensate for you thinking that Roy planned from the moment he arrived from Zug into San Diego that you would be the one who would inevitably take the heat?

You do remember Roy wasn't quite as bright as you and you were undoubtedly the dumbest Jewish person to have ever walked the planet; and you might not know that an aging imbecile does not pick up intelligence along the way.

You would agree, however, that each of us gets our just deserve in real time and why it wasn't in the least bit difficult for the Mossad to take a calculated guess when looking at this photo below

taken in 1948 that shows my weak-kneed "lucky uncle" David seated in the middle of the swing, and you might not have to look very hard to notice his jealousy of my very self-confident Fighter-Bomber-Pilot father Bernie on the far right who had just bagged the fairest English young lady, my mother Zena who was also not a "potted plant",

and of course my father being the gentleman that he is would have made sure to lower himself ever so slightly to have Zena

who wasnt exactly short

appear taller.

If you have any other questions about this one of a kind photo including how come I am possibly the only member of the family to have a copy, don't hesitate.

In the event you are thinking about the 50 American made Kittyhawks fighter bombers that my dad

Taxiing out line

flew on all his 71 miraculous missions dive bombing the crap out of the American financed Nazis during World Oil War II, which my mother's close buddy, Boris Senior purchased in early 1948 for 6 English Pounds Sterling apiece, making the sum total of 300 pounds the greatest military purchase of all time that was not lost on either Ben Gurion or his friend Jan Smuts who was still Prime Minister of South Africa, may I suggest instead you scrape off a piece of dead skin say on the underside of your feet, take out your dagga pipe,

sit back and let the stench of 6 million Jewish people murdered during the Holocaust fill your lungs.

Now one of the things you will not remember because you were not around, was how very upset was my mother Zena that your father gave Roy the biggest crack across the face that sent Roy hurtling across the room of the local police station near our house in Glenwood, Durban after Roy had got caught red handed stealing a bottle of orange juice from the sidewalk, although it could have been milk, would you know?

My mother who cared a great deal for Roy who while dumb as a doornail always showed initiative in addition to having the most excellent deportment, felt it would have served Roy much better had he been locked up in jail where he belonged and for my mother to have gladly paid for the warden to throw the key away.

Once a thief, always a thief.

A liar is a thief, is a cheat.

Nor was my mother "going overboard" given how Roy was not only a guest of ours at the time, but now us Gevisers who had never had a "problem with the law" were getting more attention than what we cared for.

You would also know that there was no person in South Africa, let alone a woman who never had a single negative news article written, given how very important it was to protect the very good Gevisser name, at all cost.

You have also no doubt been following along all these years most carefully and you will recall the wife of a close business associate of Roy's, Adele Strous Clingman sending me back on February 4th at 10:19 am, an email via her Facebook account which read:

Im not interested in history of Israel or anything else for that matter.

I never did get around to broadcasting the response of Israel Air Force Commander Syd Cohen and his wife Adeline when I repeated such an atrocity.

You are ALSO imagining who is in the blind copied section.

Take a deep breath now and then slowly while parting your lips blow out the sound, "Shhhhhhhhhhhhhhhoooooooooooooooooooo" until you are totally out of breath.

I will gladly tell you right to your face that you are a prick of the Nth Degree which I know even if I allowed you more than the first blow and the second and the third and the fourth that unless you kill me, when I respond in my own good time it will not be in the least bit violent, which is not to say that my great many current as well as former Israeli Special Forces commandos will be as understanding given how the losses they have taken including during training cannot be expected to have them quite as forgiving when it comes to their mostly Arab enemies who have never had truth on their side because their tyrant leadership know better than to buck Uncle Sam.

You on the other hand can read English and also understand that it took me no time at all following that incredible smack across your brother's face to begin distancing myself from Roy who will recall that in our final year of high school on the very day I was chosen by the student body to be captain of Samson, one of our 3 sporting groups, I immediately walked into our headmaster Mike Kessel's office and told very non-confrontational Mike that I was leaving, as I then went on to attend not one but two different high schools and it wasnt because I was either a trouble maker or a poor student but the feeling "sum" [sic] had was that I had "sumhow" [sic] lost my way provided sufficient distraction for me to remain off the radar screen and of course it helped greatly that I

had my 50cc Suzziki motorcycle to meet up with key figures in Ben Gurion's South African

"branch" of the Mossad who were also aware that there was a reason why Roy and I were not together on Ulpan back in 1972 when we were still very close friends.

Roy may even recall writing in my diary as we headed back to South Africa on the plane together, but he would not have noticed the "cold reception" I received from my mother Zena who knows just like me that she would have been told only what she needed to know about my private meetings with Ben Gurion, who never had a single kind word to say about a single South African who was not living in Israel; and remember my mother and her entire immediate family are proud British-English and will always be.

You would also be the first to agree that while at 18 I might not have been the most skilled and experienced university tutor, bearing in mind I was and remain 3 years younger than you, and you were at the time just a little ahead of me as you also served time in the 3rd Reich's Southern Division's military, and still like most without any remorse, you have always been one of the thickest Jewish people to have ever walked the planet, if not the dumbest in the history of time as we know it, some 13.5 billion years ago; and yet despite your parents barely eeking out a living from your father's Howard Pharmacy on Smith or was it West Street in Durban, South Africa you are the proud owner of the prized gold property, The Flower Hill Mall which may have more local residents more angry, but not foolish enough to do more than keep visiting our one website 2facetrueth.com and discretely handing out flyers such as this.

Do you recall the evening I spent with you in your Jacuzzi when you lived more modestly in University City, versus closer to the edge of the cliffs of La Jolla where your brother purchased his first big party house courtesy of the ill-gotten gains dished out by Marc Rich who along with all his lieutenants and their succulents, for example, you, have the blood on your hands of a whole lot more than those Jewish Israeli soldiers who got their cocks and balls cut off in the early hours of the surprise attack on Yom Kippur 1973, and you left to take a call from Roy who remember was my best friend at Carmel College high school in Durban, and then you relaid to me how Roy was just finishing off dinner in Zug, Switzerland

and was enjoying an expensive cigar which had you a little irritated?

Tell me what exactly you had in mind when deciding right now would be the time to attempt to throw me off course?

SunTzi, "Keep your friends close and your enemies even closer".

Assuming I can make it to this function on Saturday, would you mind if I brought a film crew along to film as you and I "shoot the breeze"?

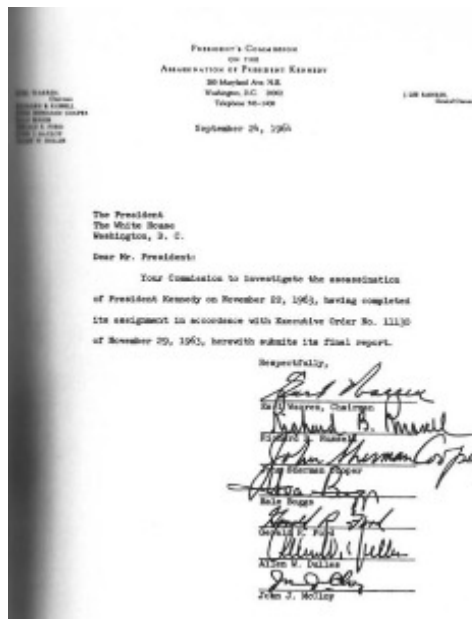

I very much look forward to hearing from you.

GsG

Ps - Your email did catch me a little by surprise and it has caused me to delay responding to my friend of 24+ years, Don Barr who understood right out of law school what it means to have very close personal friends like US Supreme Court Chief Justice Earl Warren, who did a whole lot more than rule in his US Defense/Offense contractor's favor, resulting in Donald pocketing a US\$ 1 million fee without having to fee-split with anyone, although Don probably paid for his taxi ride from Washington Dulles Airport to the Supreme Court building some half a century ago, which of course his dad, a huge oil mogul could easily afford, and if there was a possible cash crunch at the time, then there was not only Chief Justice Earl who of course invited Don into his personal chambers where he handed him a note containing a telephone number to give to Don's father when even you can figure out that Chief Justice Earl Warren would have known at least how to dial and if multi-tasking wasn't his thing then he surely had a personal secretary, but there were the 8 other judges who would have also carried sufficient pocket change to help out someone as rather important as Don Barr and whose opposing counsel when seeing the "warm and fuzzy" relationship between a snotty nosed, but not exactly wet behind the ears, although no experience to speak of, other than knowing the most important judge in the United States, do you think they told their wives and future ex-wives and girlfriends to never breath a word?

Now you have a better understanding of what it means, "It is not what you know..."

Not to mention that the Warren Commission

that concluded rather quickly that Lee Harvey Oswald, not exactly known as a Mossad sharpshooter, had acted alone in the Mossad's most carefully orchestrated assassination, had since been totally ridiculed.

You will note the date of the Commission's findings, September 24, 1964.

Below is a newspaper article about my one-of-kind international British-English mother's planned trip to Europe with both my eldest brother Neil and only sister Kathy-Louise before going alone to the States to enjoy stuff like the 1964 World's Fair.

You may have also seen this photo below that was also used in another piece of good PR.

The photo above never appeared in any newspaper article, to the best of my knowledge.

It is possible that like me who was 7 years old at the time, you also had no clue about President Lyndon Johnson, a close friend of future Mossad assassinated German-American Charles W. Engelhard, commissioning the aircraft carrier fleet Enterprise to South Africa in mid-1964 when not only was Charles W. Engelhard very much alive and well and so was my paternal grandfather Israel Issy Gevisser, but the same could not be said of my maternal grandfather Al Ash who in September 1941 applied to have his Jewish sounding name Alef Badash changed, and I doubt his mother Nechie Becker Badash who was orphaned in a pogrom that wiped out her entire immediate family, objected.

You also understand that the reason the Mossad make it their business to spell out on the Internet so much detail about their various divisions and "branches" throughout the world without mentioning by name their South African "branch", is in fact to mostly scare the enemies of Israel.

At the same time the Mossad who don't need to be reminded that the history of the world is the history of warfare are extraordinarily action-oriented.

The reason every soldier in the rest of the world's military beginning with Uncle Sam, led by the CIA conclude correctly that, "pound for pound" the best are Israeli Special Forces commandos who number extraordinarily few, is because of their beyond belief herculean raids, which explains why Hollywood has never made a blockbuster movie of Operation Green Island, July 19th-20th, 1969.

Now I want you to think first of all the blood drenched and worthless monies you and Roy have donated to charities in Israel and at the same time never have you addressed how it is possible that there is single Israeli child who goes to sleep hungry let alone according to the current Prime Minister of Israel, scores of Jewish Israeli kids begging for more of us Americans to give money; and second, of every top athlete you have competed against in your so hectic exercise routine which I won't go into what exactly you are running away from, unless you insist.

Line up this group all the way from the border with Mexico and stop when you reach Vancouver, Canada.

Have them walk, not run and only if they care to exercise the [scalene](#) muscles in the neck suggest but again do not insist, they look at the Pacific Ocean and when they reach their target to be handed their weapons of choice, but there is just one proviso; the grenades that they get handed are fake just like those carried by Israel's most elite Maritime Special Forces unit, Flotilla 13 which were inoperative because of the depths that the world's greatest athletes led by the likes of Ami Aylon reached before emerging out of the waters to face the most fortified manmade concrete island that was manned by Egypt's most skilled and experienced commandos who knew it was just a question of time before the brutal Israel Defense Force would come up with a plan of attack which to this day would be seen as total suicidal.

You have heard and possibly seen a Die Hard movie starring Bruce Willis.

Bruce Willis and Demi Moore for a period of 12 years employed a "brother" of mine, Guy Friedman

whose Commanding Officer is Admiral Ami Aylon.

Bruce Willis is a Republican and best friends with groper Arnold who is a member of the Kennedy clan who remember feature prominently in the Diamond Invention book, specifically Ch. 18, THE AMERICAN CONSPIRACY.

I have been to Bruce and Demi's Malibu beach house when my eldest brother Neil who was also employed for a couple of years at the same time as Guy, was having a little problem taking care of a litter of Demi's prized puppies who were dying the most horrendous death, overfeeding, the result of a negligent Veterinarian who had given Neil who is no slouch Master Chef the wrong volume of food which he was having to hand-feed because the bitch, not Demi, had abandoned the litter, and worse yet when coming into contact with any of her litter she was ripping these totally defenseless days old puppies to shreds; and can you imagine the sight I had to witness as there was little time for cleanup.

How many legs of newborn dogs have you seen separated from the rest of its torso?

Do you think the mother of puppies was being guided by anyone other than our One God to be merciful to her newborns rather than have them stuffed using a syringe to death?

How many chicken wings have you munched on?

What if I am right that our One God is not only vengeful but most intelligent not to have any of the rest of the animal kingdom speak our language?

Now can you tell me again what makes you think you think your prayers will help.

I make no bones about the fact that I only expect your mental health to deteriorate rapidly, otherwise God having you appear out of nowhere would be all for nought, wouldn't you agree?

Although none of us should count on it, I plan to offer my unique and universal "[risk assessment](#)" services to all the world's taxing authorities including all those here in the United States.

Are you game?

BTW, do I need to ask my middle brother Melvin how much financing you have provided him over the years, and I assume it goes beyond paying for you own monkey suit when his best man at his wedding which your brother Roy failed to show up even though by that time despite my warnings to Melvin he had allowed himself to be befriended by Roy who I assume still "keeps kosher" when not keeping kosher all the time by refraining from eating all animals that once had a pulse.

Jeffrey Essakow, how is it possible without direct guidance from One God can a hypocrite even think let alone own a blackberry that please tell me it was one of your kids and if not then one of their friends who make it their business to not just Google Search everyone they know but those such as yourself and Roy to do it repeatedly, which is why you feel the need to be such a "peacock" and promote your ownership of this most extraordinary eyesore to all of America's poor who are increasingly thanks to our One God taking over your mind as well as all those who still choose your company, aware of why the US Government makes it so easy for failed foreigners like you to mosey on into the richest neighborhood in possibly of all of the US and by up from under the noses of very rich Americans like Ernest Rady who of course is mostly Canadian, the best parcels of land, and with a Presidential Pardon in hand, use the same monies that keep getting recycled to hush up not only the US Congress but all the State Governments.

For the record, Mr. Essakow, can you give me your position on illegal immigration as it specifically applies to Mexicans illegally crossing our southern border who are not tapped into Marc Rich and Co. including the South African Reserve Bank?

Mr. Essakow, did it never occur to you why the greatest leaders of the Jewish Underground throughout the world have never been religious, and when you think of Menachem Begin also remember that it was religious Jewish student from Bar Ilan University who murdered the great Yitzhak Rabin?

Jeffrey Essakow, I would have thought that with all your exercising you would at least have developed just a little of a Yiddisha Kop and to have drawn from Proverbs, "It is better to keep quiet and let people think you to be a fool than to speak out and remove all doubt".

Your second cousin, my step-father Alan Zulman who you also think you know well, unless he has lost his mind "al-to-get-her" [sic] remembers well all your "Aunt Polly" and those were not pleasant memories for Alan who you may have forgotten only had to leave high school when he was 15 following the death of his father because his very rich relatives beginning with his uncle Hymie Zulman couldn't have been bothered to "lift a finger", but he did have the gall to loan Alan the money to buy two "sowing" [sic] machines and start his and his partner Abe Dubin's hugely successful at over and under pricing invoicing, South African Clothing Industries.

Neither of my grandfathers spoke very much and nor were they often if ever seen alone.

David Ben Gurion didnt need to hear how totally rotten was the South African Jewish community from either Israel Issy Gevisser or Al Ash who had you met him wouldnt have given you the time of day, versus Alan Zulman who when you ask him the time he tells you how to build a watch.

Go ahead right now and explain how you explain to all your Black African American friends attending your Jewish synagogue where you provided the seed capital, the words of the overwhelming Jewish South African community, "IF THERE WASN'T A BLACK PROBLEM IN SOUTH AFRICA THERE WOULD BE A JEWISH PROBLEM".

You create a problem, is what you do.

The only "problem" you ever had personally with your parents' GREAT FRIEND, orthodox Jewish Gunter "The Pig" Lazarus was that he tried to run your life the same way he ran your parents' lives, but not for a moment have you spoken out LOUDLY how this LOUD and OPEN SUPPORTER of the US Government's South African Apartheid Regime got away with his and his family's atrocities that has you all here in San Diego-La Jolla-Del Mar-Solana Beach-Rancho Sante Fe "covering for one another".

How long do you think you can keep it up?

You know you don't have the intelligence to have truth-God on your side.

I only wish, given how I will be judged by my enemies that you at least had more intelligence than shellfish.

You would know that I get around quite a lot when not being visited by trusted friends who watch over me and my loved ones very closely.

Neil Gould who you see below

alongside me and my not exactly "potted plant" most gorgeous French-Canadian wife explained rather well why he and his Russian mafia partner Alex

couldn't take your and Roy's money, not because it was any less worthless than worthless money but as Neil explained, just to hear your voice had him feeling "hectic", and Neil you know is very easy to get along with and he can be incredibly funny.

I also liked Alex a lot but eventually as I went about explaining how little the two of them knew how the real world works, Alex became extremely camera shy and he knew there was not a single Israeli Special Forces commando on board his and Neil

's motorlaunch which was in need of a good paint job.

When we visited China in the summer of 2006, neither the Mossad nor Israeli Military Intelligence had made me aware of their "timeless" Military Report which reads:

Following the Beijing Olympic Games, Al Quaida will launch a series of attacks against the oil fields of Saudi Arabia, Qatar and Kuwait that in the next instant will paralyze the US economy.

You would also know the lengths to which the Mossad confirmed such a breathtaking Military report that spells out that the reason the CIA's Al Quaida have not attacked a single sitting duck super oil tanker is because the CIA knows better than to bite the hand that feeds it.

Not all Americans are arrogant.

Israeli Special Forces commandos were being paid 3 years ago US\$ 1,000 a day to sit on board container ships like the one above which passed us by as we cruised Hong Kong bay.

The Mossad you realize also know that I am totally trustworthy which explains in part why I am still alive.

For the CIA to take me out does not make the Mossad look bad.

It is a very bad thing you are doing and your crimes will not go unpunished.

To prove my case against De Beers, I wouldnt need a photo of me and MDG standing in front of De Beers' so in your face US Justice Department-IRS-State Department-CIA-World Bank-International Monetary Fund retail operation

right on the corner of Rodeo Drive and Brighton Way, Beverly Hills, California, half a block from my former employer Alan Austin Company, very possibly the most expensive corner block in the entire US.

What would it take to have you convinced that I did a whole lot more than simply find myself a "nothing to speak of job" at De Beers' Codiam Inc. which is still headquartered on 47th Street, NYC?

Not to mention very cool MDG is presently in Montreal, Quebec, Canada staying for a couple of days with her most senior Royal Canadian Mounted Police elder brother Andre Dion and his wife Martine before cruising with her mother and elder sister Danielle Dion to Quebec City, and it is highly unlikely they will be visiting Charles W. Engelhard's Camp Chaleur retreat where future President John F. Kennedy received his "marching orders" beginning with having to let the entire US Congress know that he as well as them were all bought and paid for as he agreed that following the 1960 Presidential election he would while President elect meet with Harry Oppenheimer at the Carlyle Hotel located on the upper east end of Manhattan.

Now I want you and/or one of your trusted friends to open for you a Facebook account but not using this email address jessakow@proteaproperties.com

One purpose is to just imagine all your Flower Hill Mall tenants who are doing the same thing.

In time you will fully understand that this "numbers game" you are playing is all about not simply destroying the lives of hard working and good Americans but forcing their children to join the US military and kill totally innocent kids and be killed.

It is simply not enough to say that your religion is money because there is nothing in the least bit wrong with using money as a means of exchange but when it can all be traced to the genocide of the poor who are not stupid, not a single one close to as dumb as you and brother,,, well you get the picture.

BTW, please make note of less than a handful of edits to my earlier broadcast.

Sent by regular email using a new Apple laptop computer.

Subject: "Sending munitions to Russia to pay pennance" [sic] Re: im thinking about a change of plans.

I also got your follow up email.

Yes, and in addition keep it tight all the while thinking .about the ever threatening tax authorities of the world and those very poor but not in the least bit stupid bus people who are increasingly getting used to seeing your face without you being so foolish to be "mouthing off", and who we want to convince first with the written word to then give us an opportunity to present to them in person in less than 15 minutes, to follow our lead in not only refusing to pay taxes whenever we can, but to start the ball rolling to get back what we have paid in that has been used to not only reward failure going back to the formation of the US Federal Reserve which then inevitably led to Federal Taxation of **ONLY** the hard working poor to keep them fighting for scraps before being marched to boot camp, BUT to support their inevitable death and before that their loss of spirit and despair leading to violence that in turn supports the military economy that is not in the least bit dependent on the tax dollars which don't come even close to covering the Federal and State deficits.

Moreover, of course I-we are not alone in knowing all these facts of life; all those government officials who are "deafeningly silent" understand it is all perfectly well which explains their silence on these most important issues as they realize the need for them to keep throwing one distraction after the next and when you have the ability to call on the CIA at any time to light a fire in a faraway land, it is very easy to get lost

in one's thoughts, until realizing these very same government officials know the truth including the fact that I didn't get off a boat just yesterday in Haifa Harbor, Israel;

and then there is your meeting with CIA agent Charles Knuff at his California residence on December 23rd of last year in which he revealed his knowledge that there is more than just his brother who now knows why Mr. Knuff is not all that proud of his former "employee" [sic]; and of course Mr. Knuff and his lawyer Mr. Alan Lowensohn haven't forgotten their most threatening letters to both of us which today may very possibly have reached Mr. Knuff's close neighbor who he revealed is also "ex-CIA".

Not to mention even the US Congress when authorizing the printing of more money out of thin air to prop up this most suicidal course that they feel they have no choice in avoiding but in the meantime making their "quick escape" plans that also leave a money trail, have to deal with either an elected or unelected government official saying, "No!"; and then there is the US military who we know are not all dumb and brainwashed including that 20 year old African American kid who back on Sunday, July 5th was one of the last if not the very last passengers to walk on board a packed passenger aircraft heading from San Francisco International Airport heading towards San Diego, carrying only his steel, razor sharp ice hockey skates strung over his shoulders and before sitting down next to Marie and me in the window seat, took his time in being friendly to all the passengers who surely were not all mesmerized by his most healthy good looks, despite being worked to the bone for slave wages in the US Navy.

To mention little of you and a statistically valid sampling of the world's literate population earlier received a blind copy of the following email I sent a rather young retired 24 year US Navy Captain who I just happened to run into here at the Coffee Bean and Tea Leaf shop across from Roy Essakow-Marc Rich and Co.'s Flower Hill Mar in still very affluent intersection of Del Mar, Solana Beach and Rancho Sante Fe:

From: Gary Steven Gevisser

Date: July 14, 2009 3:28:33 PM PDT

To: Eric McDonald - Retired US Navy Captain - 24 years of service

Subject: I just met you.

hello - I thought I would take this opportunity after having just met you here at Coffee Bean shop to drop you a line.

As I mentioned I couldn't help but overhear parts of your conversation with that lady without really knowing what you were talking about, but getting a sense that you were not only a thoughtful person but smart enough to stay in what appears to be excellent physical shape; and obviously not negatively impacted from the "horrors of war" which

most people including high ranking Captains in the US Navy such as yourself are unaware of the "hard data" that shows that more than two-thirds of battlefield casualties are the result from the initial shock-wave created from exploding ordinance; a fact of life I have known about from a very young age and well before I began my highly specialized Israeli Special Forces as well as Israeli Military Intelligence training.

I also figured that there had to be good reason why I didn't come out of my mother's womb with an Israeli made Uzi submachine

in my left hand and an AK 47 in my right hand, that there had to be a better way I could help bring about "peace" which of course to those of who are not "naive", is war to all those who profit from war, and most of the world's armament manufacturers including those in Israel ALSO have absolutely no loyalty to country, race or religion.

My purpose in wanting to get together with you in person is to share some of the knowledge I have been accumulating a lifetime, which goes well beyond the battlefields, leading all the way to the boardrooms of mostly non-US based corporations who with the great profits they make from waging war have both the resources and time to create all sorts of "smokescreens" that is in fact lost to most of the world's intelligence services, and of course those elected and non-elected government officials who have been bought and paid for.

Moreover, I decided after completing my training

that was mostly one-on-one with those entrusted by David Ben Gurion who I first met on November 1st, 1972 some 57 days following PLO terrorists beginning to murder 11 defenseless athletes at the Munich Games, to not sign up with either Israeli Military Intelligence or the Mossad, which of course did not result in their loss of respect given my logical reasoning of how I had been raised by a most aware mother to trust no one other than my own better instincts which she in turn had "acquired" from her pogrom orphaned grandmother

who had raised my mother for the first 14 years of her life; not to mention my great maternal grandmother's "closeness" to Ben Gurion, the first Prime Minister of Israel, went back to the days when she was growing up in the tiny village of Plonsk, White Russia-Poland which is where Ben Gurion was born and raised, before first moving to England where she gave birth to my grandfather who didn't need to ask many questions why his mother ended up in Tel-Aviv where the Mossad remain headquartered, and Ben Gurion's female "kinsman" only returning to England when my mother was born in 1929; but at least equal importance how well I impressed Ben Gurion in both my final academic exams while on a 4 month Ulpan at his Kibbutz Sde Boker, Negev Desert, and Gadna training where I "creamed it" by scoring a

perfect score on the shooting range which considering all the distractions of the healthy and athletic girls my age on the Ulpan, was not quite as impressive as the 98% in the written exams, which of course were all in Hebrew.

Currently, I am putting the finishing touches to my forthcoming book which while covering my own personal story is all about the history of money creation and its future, focusing exclusively on the "gun-money-trail" in an effort to get people, beginning with Americans, who know so very little about their history, to wake up to why there is so very little talk by the media and government officials to this outrageous rewarding of failed corporations who have convinced the brainwashed public into believing that if they don't receive their bailouts, there will be a disastrous domino effect throughout the rest of the economy, without explaining that having succeeded by failing these corporations, who have no loyalty to country, race or religion just to their insatiable need to keep perpetuating their failure that goes against the grain of what we refer to as "The American Free Enterprise System" that will inevitably lead to great frustration followed by the "customary" violence, these corporations have in fact wiped out most, if not all, of their competitors who are obviously not around to voice any opposition; none of which is lost on those of us again not easily distracted since our training is to always never lose track of the money trail.

I am available pretty much anytime to get together as again I have plenty of time on my hands right now, helped greatly by the fact that my most "empowering" and most gorgeous French-Canadian wife is visiting her family in Quebec which of course has me missing her that much more, but using the time wisely at our most awesome art gallery-studio home on the water's edge of Del Mar.

In fact, if are not doing anything for sunset this evening, we could enjoy what looks to be a most spectacular one.

Gary

To mention in passing, as Americans focused on the rather large sum of US\$50 million that Marc Rich owed the US Treasury which he and his CIA handlers could have paid off with what Rich rounded off on a daily basis following his incredible killing during Israel's 1973 Yom Kippur War that began with green Israeli border soldiers on the Golan Heights having their nuts cut off and stuffed in their mouths, "sum" [sic] while still alive, not exactly the nicest way to either begin or end the 24 hour fast, when Rich bought oil from Iran and Iraq at US\$12 a barrel and then sold it to the US for US\$24, what they MISSED was Marc Rich and Co. which included my best friend from Carmel College High School, Durban, South Africa, Roy Essakow, then using this fictitious billions to buy up the US what they didnt already own which also didnt prevent them from using those same monies as well as loans they took with US banks to donate to charities as well as political parties; and nor have you forgotten the phone conversation I had with Roy's mother on election day 2000 that began with me inviting the whole Essakow family to my New Beginnings Party

in early December, that had Norma lecturing me, "You need to go and vote for Gore-Lieberman because we need a Jew in the White House" and of course Norma "shut down" when I asked her what Lieberman and the rest of the Jewish members of the US Congress had done during the 8 years of the Clinton Administration to assist American-Israeli spy Jonathan Pollard whose crimes don't come close to those of the US Congress who have yet to apologize for the pivotal role of the US Government and very specifically the Democrat-Socialist Democratic Party so rewarding Hitler with his Mein Kampf.

Right before my brief conversation with this very clean cut retired US Navy Captain, I had a conversation with Kent, a graduate of Thunderberg University, Arizona which he says is the number one ranked international business school.

After providing Kent with a "quick and dirty" summary of what we are achieving with 2facetrueth.com where we understand rather well that poorly educated people in the 4 most important subjects, History, Economics, Military & Politics [HEMP] forget "al-to-get" [sic] their so obvious poor diet that they dont figure out is not helpful with their ability to logically thought process, Kent responded to my question, "What would you do to make a living if the banking system fully collapsed?" with the following:

"If my job [commercial banker] evaporated, I have a knowledge in solar energy-efficient markets which is thriving. It is the new paradigm shift; a lot of capital going to a lot of companies on the forefront of just doing the right thing ,, lesser impact on carbon footprint."

Kent has yet to fully digest how De Beers, a company his professors most likely never once mentioned, have had the use of their unlimited supply of untraceable and never inventoried "diamond currency" to buy everyone and everything that they didnt already own going back to the turn of the last century following the end of the Anglo Boer War 1899-1902 when the first "civilian" rewarded for the wretched brutality of the US Government was the father of my father's first cousin's major benefactor; and as you already know I have explained in yesterday's broadcast the methodical, painstaking and most patient manner the Mossad had more than just my anything but good, "lucky uncle" David Gevisser pay most dearly as he remains still

alive with the knowledge that today it is not only the two of us who know why the Mossad left the most extraordinary gun-money trail when a year after David Gevisser was named in 1970 Chief Executive Officer of Engelhard Enterprises South Africa, the Mossad waited until a month after Charles W. Engelhard turned 54 to execute this legendary American-German, March 2nd, 1971, to be very precise; and within 6 months my "lucky uncle" Dave, who was forced to first reveal to his "close friend", my highly aware and most secretive mother Zena, that he received a US\$ 6 million "sign on bonus" when agreeing to become executor of Engelhard's extraordinary mineral rich estate, was not alone in witnessing the value skyrocketing immediately following the US Government also leaving the most extraordinary "money trail" when going off the Gold Standard on August 15th, 1971.

Not to mention I, of course long before joining De Beers' so very important Codiam Inc. still headquartered on 47th Street, New York City, knew that as executor my business person's backside "lucky uncle" Dave not only controlled the world's supply of platinum but was now the "control person" of the special interest of special interest mafia monopoly De Beers-Anglo American Codiam [DAAC] Inc.

To mention little of my uncle Dave who has always known there was nothing in the least bit naive about me, never thought he would live to see his wife Hedda as well as each one of his 4 sons and all those who have "curried favor" with them to now live the remainder of their lives with at a minimum an increasing "wall of silence" between themselves.

To mention in passing, none of us can be "an island unto our ourselves" not even in this lifetime.

I am now in receipt of your most recent back and forth with centi-millionaire Gerrit Rebbe - email address yakovalter@gmail.com - a Hasidic-ultra orthodox Jewish-Black Hatter who profiles himself on Facebook as "the current spiritual leader of the Hasidic dynasty of Ger".

My suggestion is that you backup such a revealing "back and forth" that not only the Israeli Knesset must now bow its head in shame but the entire world is left with increasing less choice of being on the side of light, or with the DAAC who interfere with the light.

Not to mention Kent who when parting, made a point of telling me he is afraid my emails might clog up his BlackBerry, may not yet have fully bought into the fact that the anything but virtuous, let alone nothing in the least bit Almighty US Dollar that is inextricably connected to the mafia monopoly De Beers, is propped up not only by the US military which has yet to go up against a first rate military and its losses against 3rd rate ragtag armies only invigorating the world's most "disciplined" [sic] militaries beginning with Israel and China whose Special Forces are all Israeli Special Forces trained, BUT at least equal in importance, the US-De Beers Dollar needs American consumers fast running out of money as well as HOPE, to keep buying; and the increasingly BIG PROBLEM is the US Government is not able as I-we match their Internet light-speed with truth of the highest order, to SUDDENLY STOP ALL THE BAD NEWS which has Americans that much more fearful of their PERSONAL SAFETY, and feeling the need to purchase, not just guns but the so important ammunitions to defend themselves in their homes, not from foreign invaders who know better and to simply wait for the inevitable ethnic cleansing civil war that President Bill "De Beers-Rhodes Scholar" Clinton was the first high office official to warn us about in his most bizarre ending speech back on January 21st, 2000 at Caltech University, with a full year remaining in office and a good 18 months before the so carefully orchestrated 9/11, which Israel's Mossad not only fully anticipated but went to the "bother" of leaving the most EXTRAORDINARY GUN-MONEY-TRAIL in August 2001, some 3 months following my last of 4 published letters to the Mossad's Jerusalem Post, all dealing with the increased risk of terrorism following the diabolical Presidential Pardon of Israel traitor Marc Rich at the 11th hour of Bill "Rhodes-De Beers Scholar" Clinton's presidency; again a year following such a dire strait prediction, which of course was not lost on the CIA who then went to work, and why this military wing of the so "civil talking" US State Department failed to warn American citizens of the Mossad's so crystal clear "heads up".

To mention little of Kent who had no difficulty standing as he sipped on his coffee which I assume was his "lunch desert" [sic] commented on the great shortage of ammunition throughout the US for the past six months and what bothered Kent the most is why no one is talking.

To mention in passing Kent who is an avid outdoorsman, hunter, "conversationalist" [sic] etc etc mentioned that the Wal-Mart in Kearny Mesa has been sold out of ammunition for the past 6 months; also commenting,

"There is an underground fear that people have the right to protect themselves, but i think the shortage has to do with the couple of suppliers are now supplying the US Government,,, maybe the US Government is sending it to Russia to pay penance. Hunters are not rushing out [to load up] because Obama is President, so something else is going on; it is intriguing. There is too much negative info going on to focus on one thing... On the day that GM filed for bankruptcy Genmar, the second largest boat manufacturer for boats under 30 feet, also filed for bankruptcy, perhaps not to effect the consumers mindset of purchasing?"
